Dusk Baby

Gerald Clayton

You arrived
A siren for a song
I found your eyes
Alive with summer light
Love was born at dawn
Not quite sun, not quite the moon
So intense at dusk
But daylight comes too soon
Mmm...
Ooo...Say goodbye
It's getting cold and late
Both realized
Something isn't right
I guess this is our fate
Not quite sun, not quite the moon
So alive at dusk
But daylight came too soon
Ooo...
Something we always knew (x2)[instrumental break]Say goodbye
It's getting cold and late
Both realized
Something isn't right
I guess this is our fate
Not quite sun, not quite the moon
So alive at dusk
But daylight came too soon
Ooo...Something we always knew
Ohh...
Something we always knew
Ooo...
