

James' Song

[Anthony Green](#)

He laughs at everything
Unknowing the joy that he brings
There is this light in his eyes
So bright no one can deny
He'll have his time to change
The whole world is spinning around JamesHe loves his mama so
Even if she doesn't know
How he got so perf-er-ect
Our love is the best architect
But things they don't stay the same no
The whole world is spinning around James
