

# Small Planet

## Ferraby Lionheart

I was born a world ago  
On top of rocks and under snow  
In the corner of your eye  
I tried to hold your hand

You could count the flowers here  
We've got no time for drinkin' beer  
We took a walk around this afternoon  
And a year had gone away, a year had gone away

You're all that I've got  
This planet's small enough for two  
Take whatever you want  
I won't forget to remember I know you

like a fox outside the sand  
I tame your heart with a careful hand  
And we talk about a life we both will understand.

You're all that I've got  
This planet's small enough for two  
Take whatever you want  
I won't forget to remember I know you

You're all that I've got  
This town ain't good enough for you  
Take whatever you want  
I won't forget to remember I know you

---
