Oppression

Ben Harper

O ho pression
You preyed on us when we sleep
Oppression
You chased after the tired, the poor, the weak
Oppression
You know you mean only harm
Oppression
You reach out with your long armBut oppression
I won't let you near me, oh no
Oppression
You shall learn to fear me, yes you willOppression
You seek population control
Oppression
To divide and to conquer is your goal
Oppression
I swear that hatred is your home
Oppression
You just won't leave bad enough aloneBut oppression
I won't let you near me, oh no
Oppression
You shall learn to fear me, yes you willOppression
I don't see how you sleep
Oppression
For your bleeding conscience I weep
Oppression
You may have the dollar on your side
But oppression
From the gospel truth you cannot hideAnd oppression
I won't let you near me, oh no
Oppression
You shall learn to fear me, yes you will
Oppression
I won't let you near me, oh no
Oppression
You shall fear me, yes you will
