Remember Me

[Ace Frehley](#)

Well, I'm staring down from Venus in the dead of night
My mind is flashing back to when the world was right
Your guns and bombs keep rolling off the assembly line
And people keep on starving and you think that's just fineWith my head in the clouds, it's easy to see
You better live together peacefully
You know the world is still your family tree
So keep it straight, remember me
It's not too late, remember meWell, I'm floating and spinning
And flying above the earth's atmosphere
And I've got a few things to say you may not wanna hear
Now there's just enough time to repair it
As long as you don't let it get you down
But there's not a whole lot you can do for yourself
When you're buried undergroundWith my head in the clouds, it's easy to see
We better live together peacefully
You know the world is still your family tree
So keep it straight, remember me
It's not too late, remember meThere's so much yelling an screaming and lying and cheating
And robbing and preaching that we've heard it all, yeah
We need some loving and caring and kissing and hugging
And helping each other or we're gonna fall
And that'll be all, remember meWith my head in the clouds, it's easy to see
You better live together peacefully
You know the world is still your family tree
So keep it straight, remember me
It's not too late, remember me
Just keep it straight, remember me
It's not too late, remember meHo, remember me
Come on, remember me, yeah
Remember me
Come on, remember me
Yeah, yeah, yeah, yeah
