New World Order

Gamma Ray

On wings of tomorrow we're coming to fly
Erasing the sorrow and this is the place where you die
We're shaking the chains off the world of today
We're coming to get you no matter what you're gonna sayThis is the time of the ending
It's the dawn of a new world order
This is a new beginning
Where a new world shall arise, we screamOn the wings of yesterday you're gonna die
And you know it's gonna be, we're screaming
This is illumination, we are
We are illuminates, bewareWe live inside society, our presence is unknown
We plot and we manipulate you to which way to go
Illumination comes across the world to bring an end
Intimidating silent force that puts us in commandThis is the dawn of the ending
It's the time for a new world order
This is a new beginning
Where a new world shall arise, we screamOn the wings of yesterday you're gonna die
And we know it's gonna be foreverThis is illumination, we are
We are illuminates, beware
This is illumination, we are
We are illuminatesIn the darkness, we shall await
Prepare for changes to seal your fateThis is illumination, we are
We are illuminates, beware
This is illumination, we are
We are illuminates
