

Right Behind You

Tribal Ink

You, always right beside me, never leaving your post
You always find me in the end, you never stop to bitch about the past
Biting my neck from day one it never last
I thought so, suspicious from the start
My eyes covered, a blind-folded lost soul
But I found my way, through the mess you made
Time's up, and it's time to pay
Even though I once believed our love was never-ending
I had to face the fact you ruined it all
You can't see me, I stay in the shadows 'til you're gone, waiting just to see
you cry
(I'll be right behind you)

You can't find me, no matter where you look, I won't be around, I'll be right behind you
(I'll be right behind, right behind you)(Come on, come on)None of us wanted it to be this way
I would be trapped in enemy land if I stayed like a ticking bomb, about to blow any time
You're bad news and no one cross the line
You see, this world don't need a fool like you
But I'm planning to stay, I got lots to do
So before you close your eyes and turn out the light, take a look again, you'll find I'm wearin' my tie
Even though I once believed our love was never-ending
I had to face the fact you ruined it all
You can't see me, I stay in the shadows 'til you're gone, waiting just to see
you cry
(I'll be right behind you)

You can't find me, no matter where you look, I won't be around, I'll be right behind you
(I'll be right behind, right behind you)Come on, come on, right behind you
None of us wanted it to be this way
Like a ticking bomb, about to blow anytime, you're bad news
This world don't need a fool like you
Before you close your eyes and turn out the light, take a look again, you'll find I'm wearin' my tie
You can't see me, I stay in the shadows 'til you're gone, waiting just to see you cry
(I'll be right behind you)

You can't find me, no matter where you look, I won't be around, I'll be right behind you
(I'll be right behind, right behind you)You can't see me
(You can't see me)
I stay in the shadows 'til you're gone, waiting just to see you cry
(I'll be right behind you)

You can't find me, no matter where you look, I won't be around, I'll be right behind you
(I'll be right behind, right behind you)I'll be right behind, right behind you
Right behind, I'll be right behind you
