Free

Bonnie Dune

Free - Bonnie Dune
Don't let go
The ride isn't better alone
We're still alive
But something needs to change inside
Let's leave tonight
Slip out into the cold
But stay awake and feel the warmth of the rising sun[Chorus x2]
What are we waiting for
What are we looking for
I think we should live like we're free
BabyI think we should live like we're free
You and meClear the skies
Where the valleys meet the ocean lines
And take back the days that we lost and left behind
Keep a heart
Never too far apart
Never ever too far apart[Chorus x2]
What are we waiting for
What are we looking for
I think we should live like we're free
BabyI think we should live like we're free
You and meWhat are we waiting for
What are we waiting for
What are we waiting forWhat are we looking for
I think we should live like we're free
You and meWhat are we waiting for (ooh)
What are we looking for
I think we should live like we're free
babyI think we should live like we're free
you and me
