# City Of Devils

## [Yellowcard](#)

Man, once sang to me
Look at you saving the world on your own
And I wonder how things gonna be
As the time here, it passes so slowIn a city of Devils we live
A city of Devils we liveFind somebody to learn
Boy, you gotta love someone more than yourself
And I can feel the fire of the city lights burn
And it's hard to find Angels in HellFlying alone
And I feel like I don't belong
And I can't tell right from the wrong
And why have I been here so long?In a city of Devils we live
A city of Devils we liveQuestions I can't seem to find
To the answers I already have
And you can't see the sky here at night
So I guess, I can't make my way backFlying alone
And I feel like I don't belong
And I can't tell right from the wrong
And why have I been here so long?What if I wanted you here right now?
Would you fall in the fire, burn me down?
If I wanted you here right now
Would you fall in the fire, burn me down?
If I wanted you here right now?In a city of Devils we live
In a city of Devils we live
A city of Devils we live, in a city ofFlying alone
And I feel like I don't belong
And I can't tell right from the wrong
And why have I been here so long?I don't belong, don't belong
I've been here too long, too long
