Come Hell Or High Water

Poison

I've got no worries
I've got no regrets
Who they think they're kiddin'?
They ain't seen nothing yet
You point your finger try to tell me I'm wrong
That never stopped me from singin' my song
I got the last laugh at the things they do
Eliminate them at the turn of a screw
I never lived by nobody's rules
I won't be sinkin' on that ship of fools
Can't push at me no matter how hard they try
Stand back, it's my turn to fly
Come hell, hell or high water
Ain't nothing's gonna hold me down
Come hell, hell or high water
Nobody messin' me around
I see their wicked ways
And miles of endless lies
I see their jaded lives
I couldn't erase my smile
But what's this shit that I just heard?
A son of a bitch, you're workin' on my nerves
I'll watch you choke on your last words
It's about time you got what you deserved

I never lived by nobody's rules
I won't be sinkin' on that ship of fools
Can't push at me no matter how hard they try
Stand back, it's my turn to fly
Come hell, hell or high water
Ain't nothing's gonna hold me down
Come hell, hell or high water
Ain't nobody messin' me around, ooh, 'round, 'round, 'round
Huh, huh, huh
Shhh
I've got something that's been on my mind
Come close I'll tell you the problem that I find
I'm sick and tired of the damage you've done
Don't blame me, I ain't the one

I'll blame yourself for the ghosts in your past
Kiss my ass
Come hell, hell or high water
Ain't nothing's gonna hold me down
Come hell, hell or high water
Nobody messin' me around
Come hell, hell or high water
Ain't nothing's gonna hold me down
Come hell, hell or high water
Nobody messin' me around
