

# Whole Year

## The Skallywags

A whole year passed without much at all  
We lived the high life, but I had to watch you fall  
And I, know you did what you had to do  
But I was left like you my friend, it's true  
We belong down here together

(Oh) And when we have a row  
Well we get so silly, and we shake about  
I know you were alone, pissed me off I know  
It's all around me, we missed the point and  
We always had our highs and our lows  
Passing by with dreams 'til daylight but now, now  
I know you were alone, pissed me off I know  
It's all around me, I missed the point, I missed the point

(Oh!)

A whole year passed without much at all  
And my friend you still remain  
Zachary you fell for the carpet stains  
And I, know you did what you had to do  
But I was living like you my friend, it's true  
We belong down here together

(Oh) And when we have a row  
Well we get so silly, and we shake about  
I know you were alone, pissed me off I know  
It's all around me, we missed the point and  
We always had our highs and our lows  
Passing by with dreams 'til daylight but now, now  
I was stuck inside my home, I remember what I told  
It's rubbish I know, I missed the point, I missed the point

(I want you like before!)
