# Clouds

## Unkle

you are lightning bolt
yes we must find a way
to conduct your energy
to a life machine
well you are
softly shaking electricity
softly shaking electricity
well you are
static hair in a cloud machine
static hair in a cloud machine....
well you are
softly shaking electricity
softly shaking electricity
well you are
static hair in a cloud machine

static hair in a cloud machine....
you are lightning bolt
yes we must find a way
to conduct your energy
to a life machine
well you are
softly shaking electricity
softly shaking electricity
well you are
static hair in a cloud machine
static hair in a cloud machine.... x10
you are lightning bolt
yes we must find a way...
