

# Hammerhead

## Rare Bird

He sees himself as a warrior  
In a world that doesn't understand  
    A demon light fills the eyes  
    Of this mechanical man  
He's a living, breathing nightmare  
    He's twisted and he's mean  
    In his head, the walking dead  
    Are his secret war machine  
        Oh, oh, hammerhead  
        He was just a lonely boy  
Before the demons took control  
    His sanity, humanity  
    Lost somewhere long ago  
Now the poisons in his memory  
    Are clogging up his veins  
And the loneliness like a devil's kiss  
    Has gone straight to his brain  
        Oh, oh, hammerhead  
        (Hammerhead)  
        Oh, oh, hammerhead  
Now he's lost within his madness  
    And more and more each day  
    The metal man turns his hand  
To the price the world must pay  
        Hammerhead  
        Oh, oh, hammerhead  
        Oh, oh, hammerhead
