Sticky Finger

Haystacks Balboa

Sticky Fingers.

As you point your finger
Witches and goblins find me
Once too afraid to linger
Hoping the darkness hides me
Spidery arms around me
Caught in a web of madness
Until the devil, the devil found me
I can't escape the sadness
Ahhhhhh!
Messy!

As you point your finger
Sorcerer's perfume blinds me
Scream of the ??? singer
Give up who Satan winds me
Fiery cold down upon
Burning the soul the soul inside me
Take? I talk on
And call the voice inside me
Ahhhhhh!
Messy!

Solo guitar.

Crazy!
So damn crazy!

As you point your finger
Claws of the black snake bites me
Hang up the poison stinger
But from the wounds excite me
I took ???
Doing her evil flowers
Her supper spell is on me
I can't escape her powers
Ahhhhhh!

Sticky finger
