

# Deep Sleep

Devo

I've been walkin' in a deep sleep  
Sleep walking but I just woke up  
From a deep sleep, a very deep sleep I've been runnin' on remote control  
In a deep sleep, a very deep sleep  
I awoke the moment I was told That a smile is just a frown turned around  
On the face of a clown with a mean streak It was a deep sleep, a very deep sleep  
I can't remember what I used to know  
In my deep sleep, a very deep sleep  
Somebody help me now and let me go  
Into a deep sleep Now I just woke up from a deep sleep  
Somebody Push me back now let me go  
Into a dream again  
To a sleep unlike before  
So deep it never ends I've been caught inside a deep sleep  
Sinking deeper after I forgot That a smile is just a frown turned around  
On the face of a clown with a mean streak In my deep sleep, a very deep sleep  
Sleepwalking as I watch myself  
In a deep sleep, it's a deep sleep  
I keep pretending that it's someone else  
In a deep sleep Now I can't get up of a deep sleep  
I'm in a deep sleep  
But I just woke up of a deep sleep  
Somebody
