

# Make It Through

## We Are Forever

I sleep with one eye open  
I lay awake when I dream  
I dream about reality  
but reality dreams meFix me when I'm broken  
tie off my loose ends  
I'll buff you with an empty hand  
cause girl you know I canCause I've got problems you've got them too  
so let's make it through this stormy weather  
I'll pray to God we'll be together  
x2We lie  
we're all liars  
we dream to inspire  
we live our lives upon the stage  
cause music saves our livesCause I've got problems you've got them too  
so let's make it through this stormy weather  
I'll pray to God we'll be together  
x5
