

The Last Time (Come With Me Tonight)

Roses Are Red

In this room I learned to love with you
So in love with you somehow
I've been alone here all this time
I've seen the daylight in your eyes
Through your eyes I learned to see again
In nightfall we are bored
We wish for something more
And now with dawn approaching
Falling faster than before
Clarity we find in morning light
(So come with me tonight)
'Cause this could be the last time
You find me drowning in my life
(Come with me tonight)
It's getting late, the light will fill this room
I'm through with you for now
I've been alone here all this time
Another day has passed me by
I'm alive until I wake again
In nightfall we are bored
We wish for something more
And now with dawn approaching
Falling faster than before
Clarity we find in morning light
(So come with me tonight)
'Cause this could be the last time
You find me drowning in my life
(Come with me tonight)
Clarity we find in morning light
(So come with me tonight)
'Cause this could be the last time
You find me drowning in my life
(Come with me tonight)
So so long my wishing well
You found me in this same hell
So so long my sweetest day
You took the pain away
Clarity we find in morning light
(So come with me tonight)
'Cause this could be the last time
You find me drowning in my life
(Come with me tonight)
Clarity we find in morning light
(So come with me tonight)
'Cause this could be the last time
