

Painted Doll

Cold Chisel

Painted doll, on a painted stage
Painted doll, on a painted stage
Shes just a one-man Punch and Judy show
For caliphs twice her age
Painted doll, on a painted stage The more they look at her
The less I see
The more they look at her
The less I see
Its a tricky situation when some
Parasite has got my painted doll
And shes got me Lookin down Sydney Harbour in the rain
My pretty babys slappin up another vein
If this is gonna be her final wage
My heart may never see this world again Shes my little sick salome
And its breakin me in two
Painted doll
Ive got a deal for you
