Honeydew

KanouKaoru & ç¿³

All I want is to be everything to you
You keep telling me it's easy to do
When I think of all the time wasted trying
Never getting through
Now I'm drinking from the honeydewGive a little give a lot my love
It never matters cause it's always enough
Just to know that you are coming over
Begets my belief
Oh my eyes, you give me sweet reliefWhen I think of all the time wasted trying
Never getting through
Now I'm drinking from the honeydew
Now I'm drinking from the honeydew
