

# Great Expectations

## Eric Carmen

Seems everyday, I'm gettin' harder pressed  
To find a reason to shave  
Watchin' the hours just slippin' away No motivation to get out of bed  
And carry on the charade  
Caught in a dream that's goin' astray Oh, all those great expectations  
Seems they never work out, never work out  
The way that I plan All those great expectations  
Why they never work out, never work out  
I can't understand And just when I think that things are goin' right  
I get a call from L.A.  
Sorry to say, we're changin' your song "I try to reason, but I can't get through  
They're gonna do it their way  
What can I say, they've never been wrong Oh, all those great expectations  
Seems they never work out, never work out  
The way that I plan All those great expectations  
Why they never work out, never work out  
I can't understand Life is just a game of chance  
I think somebody said so  
Sometimes you get a hula hoop, sometimes you get an Edsel Oh, all those great expectations  
Seems they never work out, never work out  
The way that I plan All those great expectations  
Why they never work out, never work out  
I can't understand
