

# Throwing Back the Apple

## Pale Saints

Don't fall too deep  
Don't try and sleep  
Beneath the ? that ?  
It's coming through  
Taking over you  
It's coming through  
Pouring into you It hurts so much  
But you're close enough  
To step outside again  
It's coming through  
Taking over you  
It's coming through  
Pouring into you  
It's coming through  
Taking over you
