

# Control

## Razed In Black

she's mass destruction  
forces induction  
no repercussions  
she's got to have onethrough repetition  
brings joy by friction  
she never wanted  
she never wantedshe rules desire  
by force of fire  
this violent mind  
this violent mindno conversation  
just pure deception  
pure lust defined  
pure lust definedsharp execution  
extreme exertion  
never exhaustion  
just pure additionno confrontation  
no blank permission  
she can't control  
she can't controlher exhibition  
raw as it could be  
her deprivation  
I never could believethis malediction  
no where to run  
the painful truth is that  
it exists in everyone can't find the escape  
search for the outbreak  
no way to terminate  
no way to terminatetoo overwhelming  
too overpowering  
desecrate, violate  
excruciate, dominate
