Failed Territory

Biohazard

Inner city strugglin' motherfuckin' rat race
Condemned pressure cooker that explodes in your face
Another neighborhood gets destroyed by the drug deal
Stakin' a claim on an estate that is realPay the mob's price for your own protection
Half a wise guy makes the wrong connections
Flooding our streets with your wanna be bullshit
Who whacks who, don't matter who gets hitThe space between the death of our friends is so close
This month it was neglect, our boy died of an overdose
Last month a gunshot a typical story
That's just the way it goes in a failed territoryNo hope, just dope and your chances are slim
To grow up and get out 'cause you're already in
The vacuum of the street so powerful
Suckin' you in it, drains your mind by the hour foolStill smokin' dippers our friends are all dusted
Slave to a bottle of juice fuckin' disgusted
Can't you see the neighborhood's a black hole
And the odds are that we'll never grow oldYoung guns scam runnin' on a get ahead quick tip
With your pretty ass crimes, you're on a blind road trip
Day to day death wish we all carry inside
Welcome to your suicideAn epitaph from your failed territory
An epitaph from your failed territory
An epitaph from your failed territory
An epitaph from your failed territoryWake up, break out
An epitaph from your own self doubt
Wake up, break outWake up, break out
An epitaph from your own self doubt
Wake up, break outYou call yourself a part of the avenue crew
Living here doesn't offer much else to do
But get into beef, take each other's back
Kid of eighteen broke his skull with a batAlways changin' with the trends like a fuckin' chameleon
You should live for yourself 'cause you're one in a million
A rebel 'cause you weren't born into wealth
But the only thing holdin' you down is yourselfOn the road we get the phone calls breakin' our hearts
When they find someone we love in the trunk of a car
Nothin' you can do just another sad story
An epitaph from your failed territoryAn epitaph from your failed territory
An epitaph from your failed territoryAn epitaph from your failed territory
An epitaph from your failed territory
An epitaph from your failed territory
An epitaph from your failed territory
