

Meant for Me

Chrissy Chase

I can be fragile
I can break in two
But I know I'll be
Swept up by you
And if I get frightened
You'll always be
A place of quiet
To calm me And if you feel my love
Just let it show
And if you want my heart
Just let me know 'Cause you are meant for me Sometimes I feel frozen
And the words I say
You carry my breath the wrong
But then when I touch you
And I disappear
Safe in your arms
You take me And if you feel my love
Just let it show
And if you want my heart
Just let me know 'Cause you are meant for me My heart has come alive now
It opened up a whole new world
I only want to show you
What it's like to love this love 'Cause you are meant for me 'Cause you are meant for me 'Cause you are meant
for me
