You'll Never Know

Adam Bomb

Daddy always said, "Better keep your head,
It's a great big world
Bright city lights you could get spaced out
All choked up on a girl"

When I looked into your eyes
I could see what my daddy meant
I went home alone and cried
Oh baby, realize

You'll never know just how bad I want it ?. I want it

If I'm a thousand miles away, I'd just like to say
If we're torn a part, you're forever in my heart
You'll never know

Late at night I pray, Tammi you'll come my way
And we could sip a bottle of wine
Just thinking' makes me weak at the knees
Oh baby, baby please

I'm just a lonely boy, I like to kick around town to town
But one dream that can't come true, I could never forget you

Now it seems so long age

You'll never know just how bad I want it, I want it
And if it takes some time to find
Would you remember me
As we drift apart
You're forever in my heart

You'll never know
You'll never know

You'll never know
