

# East West

## Herman's Hermits

East, west, over the ocean  
Perpetual motion, traveling around  
No rest, singing and playing  
Night out and day in, doing the rounds  
What a great life it must seem  
Swell joints, everything classy  
Nothing that's passe, only the best  
Lush girls ogling and eying  
Crying and sighing, this is success  
What a great life it must seem  
But when I hear young voices singing out  
The bells at home come ringing out  
When I think all alone  
Then I think of my home  
Mom, Dad, all 'round the fire  
In festive attire, keeping the day  
Aunts, kids, all the relations  
Congratulations, this is success  
What a great life it must seem  
But when I hear young voices singing out  
The bells at home come ringing out  
When I feel all alone  
Then I long for my home
