

Help Me

Trisha Yearwood

You're always so patient, you're always so kind
And I've got this fiery temper always fallin' out on love
Lord, I say just what I think and you wanna think things out
Baby, you stand on your own, while I run with the crowd What's it like to be so strong? Help me
I'm just barely hanging on, help me
Lord, I wanna do this ride, help me I'm getting tired of being the way I've always been
But baby, the way you love me makes me wanna try again
You see all the good in me and honey, I see all the bad
You keep talking about the future like you've never seen my past What's it like to be so strong? Help me
I'm just barely hanging on, help me
Lord, I wanna do this ride, help me
Baby, I wanna do this ride, help me
