The Devil's Kiss

Helldorado

Come on and tell me, tell me what's wrong
You look scared stiff of me
Tell me girl what's on your tongue
There's something I don't seeWhat the hell is going on in this house?
Won't you please explain?
Tell me girl, why are you quiet as a mouse?
And tell me, what's that stain?Never thought that it would come to this
Never thought that this could be
You've been fooled by the devils kiss
You should have listened to meI'm going down, I'm going downtown
I'm gonna buy me a gun
Like fire I'm gonna come back around
And make that devil run
