

# Lover Be Strong

Gavin DeGraw

No matter what happens, I see you on the other side  
There's just too many distractions, waiting for the perfect time  
I know you're alright, by the friends you keep  
It'll all be fine, you depend on me Oh, oh, oh lover, be strong while I'm gone  
And if you feel like falling, just hold on  
Because everybody knows what this all we had  
Everybody wants and they want it bad  
Oh, oh, oh lover, be strong while I'm gone Just under the radar, a thread approach is slipping in  
On another stormy morning, another issue could begin  
But you heard these lines and these echoing  
You ignore them all till your wedding day Oh, oh, oh lover, be strong while I'm gone  
And if you feel like falling, just hold on  
Because everybody knows what this all we had  
Everybody wants and they want it bad  
Oh, oh, oh lover, be strong while I'm gone When you look and tell me love, just return  
I'll be waiting here for you, and you do Oh, oh, oh lover, be strong while I'm gone  
And if you feel like falling, just hold on  
Because everybody knows what this all we had  
Everybody wants and they want it bad  
Oh, oh, oh lover, be strong while I'm gone Lover be strong, lover be strong  
Lover be strong, lover be strong, oh
