

# Sail On

## Masterplan

You cannot see it coming  
Always without a warning  
You need to hold on tighter  
Find a brand new start  
High on the wire  
They taunted you like the Messiah  
Time for a change  
Before your life just falls apart  
How could you find a way  
From deep within your heart  
Reach out and gaze at the star  
Let the vision fly  
We always have to sail on  
Out of shadows to the light beyond  
Never shut your weary eyes  
But always try to see the line  
Can you see it in your mind  
Wearing the mask for so long  
The clown must believe to hold on  
Throw down your fears  
and guide the strength which lies within  
We always have to sail on  
Out of shadows to the light beyond  
Never shut your weary eyes  
But always try to see the line  
Can you see it in your mind  
Can you see it in your mind  
New rising sun will shine forever  
All your power strong as steel  
Turn the page and seek no saviour  
Break free and see  
The line through the wheel  
We always have to sail on  
Out of shadows to the light beyond  
Never shut your weary eyes  
But always try to see the line  
We always have to sail on  
Out of shadows to the light beyond  
Never shut your weary eyes  
But always try to see the line  
Can you see it in your mind  
Can you see the line  
See the line through the wheel  
Can you see the line
