Outlaw

Plus One

Look over your shoulder
Remember that you're older
Forget about who told ya
That everything is over[Chorus]
You don't have to change your name
You can outrun your chasing blame
Just like an outlaw each one of us will get awayLook over your shoulder
The past will make you bolder
And even if it's colder
You'll be one step closer[Chorus]
You don't have to change your name
You can outrun your chasing blame
Just like an outlaw each one of us will get awayRise, saints and sinners rise
Today we're equal
Unite, all of us unite
The time has come where we will be as one[Chorus]
You don't have to change your name
You can't outrun your chasing blame
Just like an outlaw each one of us will get away [repeat]
