Summer Sun

Eva Under Fire

Walking on air tonight
You've got that stare tonight
Woah oh oh woah

Light up my heart tonight
Dance in the fire light
Woah oh oh woah

Way out where the sunlight fades
We'll write forever in the waves
Way out where the sunlight fades
We'll write forever

Hey
I think I found the one
Under the summer sun
Hey
You're lighting up the sky tonight
I finally feel alive, yeah

Come as you are tonight
Stars set on fire tonight
Woah oh oh woah

West wind that fades in time
This is where the worlds align

And I say hey
I finally found the one
Under the summer sun
Hey
You're lighting up the sky tonight
I finally feel alive
Feel alive

I think I found the one
Under the summer sun
I think I found the one
(I finally feel alive)

I finally I found the one
Under the summer sun
I finally I found the one
I finally feel alive
I think I found the one
Under the summer sun
I think I found the one
Hey (I finally found the one)
Hey
