Violator

Ra

A war against time, destined to lose
I'll just sit and watch TV
A magical force, hypnotic drool
I'll take in all that I can seeI'm seeing chains, now hold me down
The recline of modern man
Neatly displayed and bundled lies
An hour glass and I'm the sandGenerator, decimator
Universal, devastatorA cyber involved diversity
So straighten up and go on line
Sexual drive intensity
The darkest pit that you can findI'm holding this key to be erased
Put your life into a disk
Strainful powers, social disgrace
Wages war with little riskGenerator, decimator
Universal, devastator
Substitution, evolution
Electronic, absolutionOh, my head is always lost
And always changing mind
What's wrong just feels so right
I think I'm going blindGenerator, decimator
Universal, devastator
Substitution, evolution
Electronic, absolution
