## What About Love

## **Faithless**

Come on Come on Come onI know you so intimately Anger and misery The reason for my hearts fragility How will it be If you simply set me freeRestore my ability To hold my head high To speak only truth Where I used to lie Goodbye to the enemy It's been too long Come on What about love? I know you so intimately Your heady sensuality The reason for my hearts fragility How will it be If you simply come back to meRestore my stability Take your fill of me Finally in step like the military And just as strong And it's been so long Come on What about love? What about love?
