Blowtorch Slaughter

Cannibal Corpse

Scourged through searing
Incandescence
Melt together
Fire torture brings me intense painPre-destined to incinerate
The flesh is dripping from my face
My limbs and torso mold
As one as my blood is boilingBlowtorch slaughter
Bodily capitulation
Blowtorch slaughterBlowtorch slaughter
Merciless disintegration
Blowtorch slaughterPre-destined to incinerate
The flesh is dripping from my face
My limbs and torso mold
As one as my blood is boilingConflagration through my veins
Desensitized, charring skin, burnt within
Branded soul, torrid crueltyConflagration, towards the veinsDwidle away, glowing heat to mutilate
Head set ablaze, consumed in flames
I burn to the groundBlowtorch slaughterPre-destined to incinerate
The flesh is dripping from my face
My limbs and torso mold
As one as my blood is boilingBlowtorch slaughter
Merciless disintegration
Fire torture takes me to my end
