

So Easy

The Candyskins

I know you but do you know yourself.
Would you like to be somebody else?
Well now you said you're rising,
Why don't you tell it to the sky,
And all the world will say,
It's so easy, It's so easy.

And stop me if you see what I believe.
It would take a universe to tell her what I need.

I can't believe I said what's on my mind.
Now you're here I want you all the time.
Well now I've seen you running round,
Talking to the sky,
It's so easy, It's so easy.

It would take a universe to tell her how I feel here,
Standing right beside you.
She said life is what's behind you.
