

Boyz n Poizn

Phoebe Ryan

[Verse 1]

John, Jack and James, calling my name

Every night I'm looking for some, Captain Watson

I'm feeling like I don't even care, going nowhere

Honey if you want me, you better think twice[Pre-Chorus]

You know I never call when I'm falling in love

You know I never call when I'm falling in love[Chorus]

All I want is boys and poison

Evey night it's boys and poison

All I do is enjoy 'em, destroy 'em

Until I feel what I wanna feel, what I wanna feel

Until I feel what I wanna feel, what I wanna feel[Verse 2]

Between the bars, backseats of cars

Finding God and riding the wave

Lying, untamed, call the cops

I'm hot to the touch, don't think too much

Honey if you want me, don't play it nice[Pre-Chorus]

You know I never call when I'm falling in love

You know I never call when I'm falling in love[Chorus]

All I want is boys and poison

Every night it's boys and poison

All I do is enjoy 'em, destroy 'em

Until I feel what I wanna feel, what I wanna feel

Until I feel what I wanna feel, what I wanna feelUntil I feel what I wanna feel, what I wanna feel

Until I feel what I wanna feel, what I wanna feel[Chorus]

All I want is boys and poison

Every night it's boys and poison

All I do is enjoy 'em, destroy 'em

Until I feel what I wanna feel, what I wanna feel

Until I feel what I wanna feel, what I wanna feel

Until I feel what I wanna feel, what I wanna feel

Until I feel what I wanna feel, what I wanna feel
