

depth of field

Somadrone

Well, the field is wide open
With endless new lands
And infinite landscapes

For us to create, now
Yeah, I want to live in another light
Yeah, I want to live

Here the walls keep closing

As we suffocate, but a door just opened, wide
Yeah, I want to live in another light
Yeah, I want to live
Ohh, we cannot let us die

We must prepare, prepare
For the time to rise and then
We'll face the truth

Ohh, we cannot let us die

We must prepare, prepare
For the time to rise and then
We'll face ourselves

We'll face, we'll face, we'll face ourselves

We'll face, we'll face, we'll face ourselves
Ohh, yeah, I want to live in another light
Yeah, I want to live
We'll face, we'll face, we'll face ourselves
We'll face, we'll face, we'll face ourselves
