

# Come into My Arms

Judy Torres

The other night when we kissed

You told me I was yours forever

But when I woke up the next morning, you were gone

Come back baby, come into my arms

You, you showed me how love could be

Just show me how much you need

You've always been by my side

Oh, baby that's no lie'Cause I, I've always been true to you

I've always loved one, that's true

Oh baby, can't you see that it's you

You know that I love you so

Come into my arms baby, I know how you feel

Come into my arms baby, this love for you is real

I've always been too much for you it burns inside

To wake up in the morning and you're not by my side

Come into my arms baby, I know how you feel

Come into my arms baby, this love for you is real

I've always been too much for you it burns inside

To wake up in the morning and you're not by my side

You, you shared your thoughts with me

You shared your seccrecies

And oh, how that makes me feel
