

# Bottles to the Ground

**NOFX**

You know it when it's over  
Doors are closing feel the sober staring at you  
You know you better take one last good look One more round and it's bottles to the ground  
Smashing of the glass what a supersonic sound  
Gotta pull the plug when, when it's time to die, bottles to the ground There's a suitcase on the sidewalk  
There's a record in a milkcrate  
She'll be staying you'll be throwing whiskey over one lip One more round then it's bottle to the ground  
Smashing of the glass a perfect perfect sound  
Gotta pay the piper when the rats are gone, all bottles to the ground One more round then it's bottle to the ground  
One more round then it's bottle to the ground  
One more round then it's bottle to the ground  
...
