

You Got the Job

Bif Naked

If smiling raver chubby gurls with fragrant bartered blond curls wont lead you to stray you got the job

If you don't mind cigarette smoke and my addiction to diet coke and sex night and day you got the job

If you promise not to make me cry and never ever tell a lie, when im on the road you got the job

If you love me for who I am ill love you back forever and babee im sold, you got the job!!!!
