Denver

Clem Snide

I hope that you never forgive me
Forever deny me your smile
Cause I met this woman in Denver
And now she is carrying my childRemember that week in the mountains
Half-naked we laid in the grass
Between us a love without question
And all the things seem new, days spent with you
Is all I should want from this lifeI hope that you never forgive me
Forever deny me your smile
Cause I met this woman in Denver
And now she is carrying my childWell turns out that she's a little bit younger
Than I ever thought to suspect
And she loves Jesus Christ with hunger
But you have respect, she'll be needing some help
So my planes leaving just after darkI hope that you never forgive me
Forever your deny your smile
Cause I met this woman in Denver
And now she is carrying my child
