Under the Ivy

Tracey Thorn

It wouldn't take me long
to tell you how to find me
tell you where we'll meet,
this little girl inside me is retreating
to her favourite placego into the garden
go under the ivy
under the leaves
away from the party
go right to the rose
go right to the white rose, for meI sit here in the thunder
the green on the grey
and feel it all around me
it's not easy for me
to give away the secret
and you know it's not safeto go into the garden
under the ivy
under the leaves
away from the party
go right to the rose right
to the white rose, for mego into the garden
go under the ivy
go under the leaves with mego right to the rose
go right to the wild rose
I'll be waiting for you
it wouldn't take me long to tell you how to find me...
