

Under the Ivy

Tracey Thorn

It wouldn't take me long
to tell you how to find me
tell you where we'll meet,
this little girl inside me is retreating
to her favourite place
go into the garden
go under the ivy
under the leaves
away from the party
go right to the rose
go right to the white rose, for me
I sit here in the thunder
the green on the grey
and feel it all around me
it's not easy for me
to give away the secret
and you know it's not safe
to go into the garden
under the ivy
under the leaves
away from the party
go right to the rose
go right to the white rose, for me
go into the garden
go under the ivy
go under the leaves with me
go right to the rose
go right to the wild rose
I'll be waiting for you
it wouldn't take me long to tell you how to find me...
