

# How Could I Have Known

Keaton Henson

How could I have known  
you were the one for me  
How could I known  
you were the air I breathe  
If I don't believe in loveHow was I to know  
I couldn't live without  
your arms around me  
You only come back now  
and I let you down againAnd how could you allow  
allow me to love you so  
How cruel a thing  
If you only hold me close  
I'd not let you go again  
Guess I could have been  
A better man  
I should have hold onto your coat  
But how could I've knowAnd now looking back  
Should have been on my knees  
But I can be cold  
Should have said "stay with me"  
"please don't leave me alone" And those other girls  
they never made feel  
The way I do now  
Know that our love was real  
But I broke the deal  
And now  
I'm out in the the cold  
Baby come home be close  
Please don't let me drown  
Know that I love the most about holy ghost guy get?Guess I could have tried  
A little harder  
I seek comfort in being alone  
How could I have known
