

# There's Nothing Underwater

## Lightspeed Champion

You know there's nothing underwater  
I'm changing my tune within a lovers dune  
Pass this cloak, I'll wrap you in ember  
It's better to fly than never reach the sky Every second that you run away  
Makes me miss you more and more  
Haven't eaten for days and days  
Torture in a southern law  
I miss you, I miss you Deep breath and dream a little longer  
I'm watching you grow, an idol of my own  
Pass this cloak and wrap you in ember  
It's better to fly than never reach the sky Every second that you run away  
Makes me miss you more and more  
Haven't eaten for days and days  
Torture in a southern law  
I miss you, I miss you Every second that you run away  
Makes me miss you more and more  
Haven't eaten for days and days  
Torture in a southern law  
I miss you, I miss you Every second that you run away  
Makes me miss you more and more  
I haven't eaten for days and days  
Torture in a southern law  
I miss you, I miss you
