

# Exquisite Eschatology

## Haemorrhage

Suctioning out the faecal detritus  
Absorbing coproemetic grumes  
Picking up excremental samples  
Bear the fetor of rectal fumesFragments of alimentary matter  
Contained in the yellowish sludge  
Survivors of digestive process  
Devoured by intestinal grubs...Qualmish faecal feast  
Excrement, xysma and rotted offals  
Haemorrhage from the eroded rectal wall  
GRUMEEE!... GRUMEE!!...  
GRUMEEEE!!!... GRUME!
