Told You So

The F-Ups

You want to know what's all inside of me
Well, just give me your best shot
You try and take it all away from me
Well, here you goI hate to say I told you so
That I'll never fucking let it go
I'll tell you something
That you outta know again soI fucking hate it when you let me now
All your problems fucking let 'em go
I'll tell you something that you outta know again soYou try to push it all back on to me
Well, just give me your only shot
I'm gonna bring it all right back to you
So here's your try
