Triads

The High Llamas

The motel's heights, it over spills
We see it creeping up a hill
The dust will fly but settles green
The promised rain is bubble clean
The promised rain

Dust and rain, keep it down
Dust and rain, take these stones
Spread them out, spread them out

We have to stop to break the night
I don't know silence, what's it like
The day was dry but now it's cool
Replace the thaw, we're passing through
Replace the thaw

Dust and rain, keep it down
Dust and rain, take these stones
Spread them out, spread them out

The bridge is near, it's not so deep
The river trickles underneath
Across the bridge in broken step
The youngest date, the difference there
The youngest date

Dust and rain, keep it down
Dust and rain, take these stones
Spread them out, spread them out
