Lover Is Childlike

The Low Anthem

Meet me down by the whale watch Meet me down by the sea Meet me down at Coney Island We'll go out on the sea She don't ask me no questions 'Cause I don't cry no wolf By the ruins of the ferris wheel See her down in the surf You might think she's Christ-like But my lover is childlike See the fish swimmin' upstream Back to the hills Want no part in the whale watch If you couldn't tell My lover ain't Christ-like But my lover is childlike She don't care for country In her tatters and rags As the band plays the anthem She whispers, "God hates flags"
